Database Management

Class	AboutUs.jsx
Responsibilities	<ul style="list-style-type: none"> - Render an "About Us" section with content. - Provide a structured view containing a heading and a paragraph to display information about the team.
Collaborators	<ul style="list-style-type: none"> - App.js

Class	ChatBot.jsx
Responsibilities	<ul style="list-style-type: none"> - Render the main chatbot interface by encapsulating ChatContainer. - Pass user-specific data (userEmail) as props to ChatContainer.
Collaborators	<ul style="list-style-type: none"> - App.js - ChatBot.css - Database

Class	Dashboard.jsx
Responsibilities	<ul style="list-style-type: none"> - Render user profile information, achievements, and game statistics. - Manage and display the profile image with upload functionality. - Provide a logout function, allowing the user to reset their session.
Collaborators	<ul style="list-style-type: none"> - App.js - Dashboard.css - Database

Class	GameList.jsx
--------------	--------------

Responsibilities	<ul style="list-style-type: none"> - Render a list of games based on <code>gameListObject</code> prop. - Display the list title from <code>listType</code>. - Provide navigation links for each game item.
Collaborators	<ul style="list-style-type: none"> - App.js - GameList.css

Class	GamePage.jsx
Responsibilities	<ul style="list-style-type: none"> - Render the game interface with <code>GameHeader</code>, <code>GameBoard</code>, and <code>GameLoader</code>. - Pass relevant game data and user information to child components. - Log the received data and processed user details for debugging purposes.
Collaborators	<ul style="list-style-type: none"> - App.js - GamePage.css - GameHeader - GameBoard - GameLoader

Class	HomePage.jsx
Responsibilities	<ul style="list-style-type: none"> - Render a three-column layout with placeholder content for each section. - Provide a basic responsive structure using Bootstrap classes.
Collaborators	<ul style="list-style-type: none"> - App.js - Footer component

Class	LoginPage.jsx
--------------	---------------

Responsibilities	<ul style="list-style-type: none">- Render login and registration forms with conditional switching between them.- Handle user login and registration through API calls and manage login state.- Conditionally render the Dashboard component upon successful login.
Collaborators	<ul style="list-style-type: none">- App.js- LoginPage.css- Backend API

CLASS NAME: Footer.jsx

Parent Classes (if any): App.jsx

Subclasses (if any):

Responsibilities:

Generate Footer section of webpage

Collaboraters:

AboutUs.jsxChatBox.jsxDashboard.jsxGameList.jsxGamePage.jsxHomePage.jsxLoginPage.jsx

CLASS NAME: GameLoader.jsx

Parent Classes (if any): GameBoard.jsx

Subclasses (if any): Snake

Responsibilities:

Load and display content based on value it recieved in gameBody

Collaboraters:

SnakeGameWordGameAimTrainerImageMemoryGameSlotGame

CLASS NAME: GameBoard.jsx

Parent Classes (if any): GamePage.jsx

Subclasses (if any):

Responsibilities:

Central layout for game area, displays game interface

Collaboraters:

GameLoaderHelpfulTipsPreviousAttempts

CLASS NAME: HelpfulTips.jsx

Parent Classes (if any): GameBoard.jsx

Subclasses (if any):

Responsibilities:

Display guidance and tips to assist players

Collaboraters:

SnakeGameWordGameAimTrainerImageMemoryGameSlotGame

CLASS NAME: GameHeader.jsx

Parent Classes (if any): GamePage.jsx

Subclasses (if any):

Responsibilities:

Display name of game as a heading in game interface

Collaboraters:

SnakeGameWordGameAimTrainerImageMemoryGameSlotGame

CLASS NAME: Navbar.jsx

Parent Classes (if any): App.jsx

Subclasses (if any):

Responsibilities:

Navigate links in the application for users to access different sections.

Collaboraters:

App.jsxAiChatbotGameListUserLoginIn/OutDashboard

CLASS NAME: PreviousAttempts.jsx

Parent Classes (if any):

Subclasses (if any):

Responsibilities:

Allows users to check their past attempt

Collaboraters:

SnakeGameWordGameAimTrainerImageMemoryGameSlotGameUser

ChatModel.jsx	
Parent class: Subclass:	Collaborator: ChatModel.jsx ChatRoute.jsx Server.js ChatController.jsx
Responsibilities: Creating schema for chat messageSchema chatSchema	

ChatContainer.jsx	
Parent class: Chatbot.jsx Subclass: Message.jsx	Collaborator: ChatModel.jsx ChatRoute.jsx Server.js ChatController.jsx
Responsibilities: Accept user inputs	

Chatbot.jsx	
Parent class: app.jsx Subclass: ChatContainer.jsx	Collaborator: ChatModel.jsx ChatRoute.jsx Server.js ChatContainer.jsx ChatController.jsx
Responsibilities: Provide an collapsable chat interface	

Server.js	
Parent class: Subclass:	Collaborator: SnakeUserData.route.js ChatRoute.jsx UserRoute.js db.js
Responsibilities: Set up the web server for chatbot	

ChatController.jsx	
Parent class: Subclass:	ChatController.jsx ChatModel.jsx ChatRoute.jsx Server.js
Responsibilities: Captures the chatbot logic generateResponse() createChat() appendMessage() getLatestMessage() getAllMessages()	

ChatRoute.jsx	
Parent class: Subclass:	ChatController.jsx ChatModel.jsx Server.js
Responsibilities: Handle POST requests for different API endpoints	

LoginPage.jsx	
Parent class: App.jsx Subclass:	Dashboard.jsx
Responsibilities: Allows users to sign up, change account and login HandleUserLogin() SwitchLogin(Signup()) HandleRegisterNewUser()	

Snake.jsx	
Parent class: Subclass:	SnakeGameState.jsx GameLoader.jsx User and snake scores databases
Responsibilities: Loading essential component providing user states Wrap the snake	

SnakeGameState.jsx	
Parent class: Snake.jsx Subclass: SnakeGameWindow.jsx	SnakeGameWindow.jsx
Responsibilities: Handling state change functions updating according to database	

SnakeGameWindow.jsx	
Parent class: App.jsx Subclass:	Snake.jsx
Responsibilities: Control the snake game logic	

User database	
Parent class: Subclass:	Snake.jsx Dashboard.jsx LoginPage.jsx
Responsibilities: Record the username, email, password, profile images Hashing passwords to protect users
